

## 接收機設備安裝

The diagram illustrates two different antenna configurations for the UR-223 model. On the left, the UR-223D is shown with two vertical whip antennas. A blue line labeled '天線' (Antenna) connects the two antennas. The device itself is a rectangular unit with various controls and a display. On the right, the UR-223S is shown with two vertical whip antennas. A blue line labeled '天線' (Antenna) connects the two antennas. The device is a rectangular unit with a different set of controls and a display compared to the UR-223D.

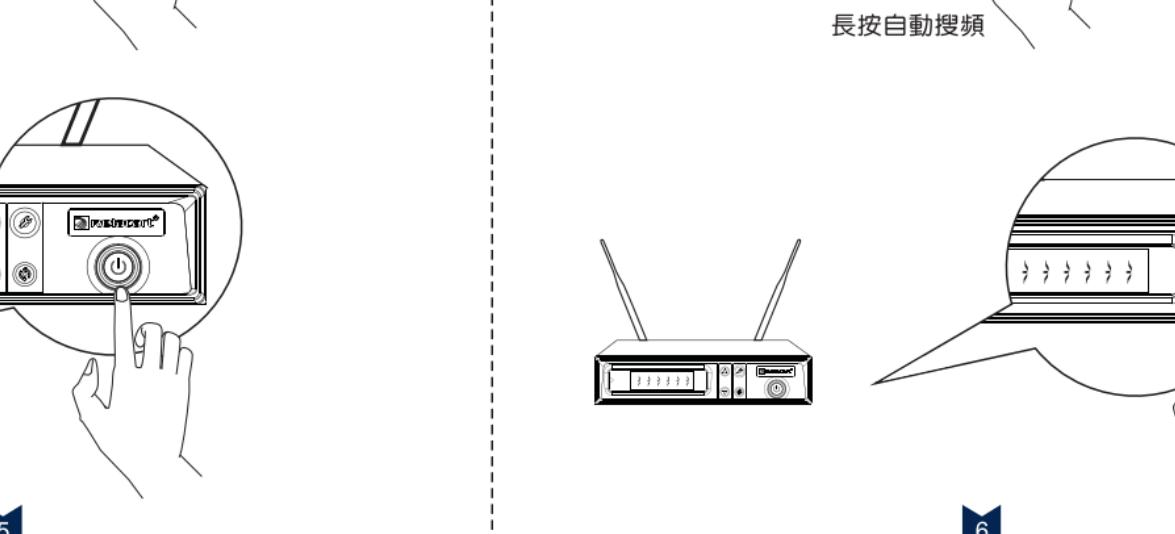

## 電池安裝

鍵開啓接收機,電源指示燈和顯示屏亮起;

2.UR-223D長按接收機"SELECT"鍵,UR-223S長按接收機"▼功能 (AFS),就會出現頻率搜索。(如圖)

八自動搜索頻率
